WILL OPENING MATCH OF HOCKEY SCHEDULE NOW BE POSTPONED

QUEENS NEEDS SOME PRACTICE AND WILL PETITION LEAGUE TO DEFER THE FIRST GAME

Limestone City Hockeyists have been Unable to Secure Ice for Indoor Practice and will be in no Shape for First Game on Friday

THE HOCKEY SCHEDULE AT LAST MADE PUBLIC

The Games in Toronto will Take Place on Saturday After-
noons

(Special To Daily).

Kingston, Jan. 6th.—The Queen's University Senior Hockey team are in a bad fix as they have so far been unable to have a single indoor practice owing to the mildness of the weather during the past two weeks. They are billed to clash with Varsity in the opening game of the Intercollegiate season on Friday night, and they will be unable to put any kind of a team on the ice at all as none of the men have had any chance to get into shape. The Toronto team on the other hand have been on a tour in the States and in addition to this can practice on artificial ice in the new arena so are in tip-top shape for Friday's game.

The Queen's University Hockey Club consider that it is hardly fair to ask them to play Varsity with a team that has had no practice and is in poor shape through no fault of their own and they will accordingly request the league to postpone the first game till later on in the season.

The Senior Hockey schedule has now been announced by the secretary of the league and is as follows:—

Jan. 10th.—Toronto at Queen's.

Jan. 17th.—Queen's at McGill

Jan. 25th.—McGill at Toronto

Jan. 31st.—Toronto at McGill

Feb. 8th.—Queen's at Toronto

Feb. 14th.—McGill at Queen's.

It is with reference to the first game that the local team will apply to the league. They claim that the season is starting earlier than usual, and that as there will be no play-off with the other section this year the game can easily be played at the end of the season if necessary without making it too late. In addition to this it would also give them a chance to get into condition for the opening game and this at present appears to be altogether impossible.

A new departure will be made this year by the Varsity team. In the past all the games in Toronto have been played on Friday evenings, but this season they will be played on Saturday afternoons. This will probably make some difference to visiting teams as the light is very different and may prove a handicap to the goal keepers.

Self-assurance is not an undesirable asset. It is better to be too fresh than to be a bad egg.

Any man can wake up some morning and find another fellow famous.

THE UNIVERSITY GYM CLOSED BUILDING RENDERED UNSAFE IS THE TUNNEL RESPONSIBLE?

Municipal Authorities have Condemned the Structure for the Present at Least, and as a Result All Gymnastic Work has been Stopped

BASKETBALL CLUB TO PRACTICE IN Y. M. C. A.

Arrangements are being Made by the Other Undergraduate Societies Affected with the Purpose of Securing Accommodation

The University gymnasium on Mansfield Street has been closed for an indefinite period. Information with regard to the matter was received by the "Daily" from Dr. Harvey who said that he was not in complete possession of all the facts but that the municipal authorities had closed the building for the time being at least. Whether the tunnel was responsible for this the Doctor could not say. Current rumour alleges, however, that this is so and the "Daily" will be able to enlighten its readers on this matter in the near future.

Other buildings appear to have been similarly affected by the work under

way in the Canadian Northern excavation and it would seem highly probable that the gymnasium has also suffered.

The basketball club will now hold their practices in the Y.M.C.A. gymnasium and will, in all probability, play their games there. What the gymnasium classes intend doing the "Daily" has not yet been informed but accommodation for them will also undoubtedly be found elsewhere.

The Boxing, Wrestling and Fencing Club are also trying to find accommodation. They have not as yet decided where they will go, but it will in all probability be either the M.A.A. A., the Y.M.C.A., or the McGill Union.

WATER POLO TEAM HAVE POOR CHANCE FOR CHAMPIONSHIP

Illness is Playing Havoc with
the Ranks of the McGill
Aquatic Experts

McGill's chances for winning the water polo championship this year appear anything but promising. On Wednesday night the M.A.A.A. and the M. S. C. played the first game of the play-off as McGill were fortunate enough to draw the bye. The Red and White team, however, clash with

the winners of Wednesday's contest next Friday night in a neutral bath. That is to say that if the M.A.A.A. win, the game will take place in the M.S.C. tank and vice-versa.

Chances for a McGill win in the final are poor as the team has had no practices lately, and will be badly crippled for their encounter. Baldwin, a defence man, has tonsillitis and although he will, in all probability, be able to play on Friday, still he will hardly be in shape for a hard game. See Smith is suffering from a bad cold, and has been unable to practice lately, while Kerry is suffering from an attack of grippe and has also not been in uniform for over a week. Buckley has been unwell for sometime now and will be unable to

WHAT ABOUT LAVAL?

The opening of the Intercollegiate Hockey Season is now close at hand and the three clubs in the older section of the league are preparing to play their games according to the schedule published in today's Daily. There has been no meeting of the league recently and yet Ottawa College have withdrawn from their section and no steps have as yet been taken either to fill their place or to arrange for the re-entry of Laval into the section remaining.

At present it would seem as if Laval were entitled to play the winners of the other series for the championship. This is an entirely unsatisfactory arrangement both from the point of view of Laval and the league and something should be done at once to clear this matter up. The Daily hopes that the Intercollegiate Hockey League will see fit to meet at once and look into this matter as the conduct of the executive of that body so far has been dilatory and unsatisfactory.

In fairness to Laval and for the good of the sport we would like to see the McGill Hockey Club make the first move in this matter. Surely something can be done to clear up a situation which gives promise of becoming unpleasant and embarrassing in the near future.

WHAT ABOUT A GYMNASIUM?

It has been felt for a long time that one of the most imperative needs of this University was a new and up-to-date gymnasium. This fact has been recognized by students and governors alike and in spite of many difficulties which stood in the way of the attainment of this object it appeared highly probable that something would be done about the matter in the very near future.

The need for a new gymnasium has now been made more urgent than before by the fact that the present one has become unsafe and classes can no longer be held there. It is self evident that steps must be taken immediately to secure accommodation which is not merely temporary and the Daily expects that a new and far better gymnasium will be secured as soon as possible.

play while Skelton, who took Ebert's place in goal for the last two games is not going to play any more.

Geo. Hodgson has given up the game because it is bad for his swimming and the swimming team are going to tour the States at the end of the month and Hodgson naturally wants to be in as good condition as possible for the trip. Frank McGill is practically the only senior in goal shape, although McKay, the manager, has been turning out lately and will play on Friday night.

A RECENT GRADUATE OF APPLIED SCIENCE NOW EDITS MAGAZINE

Many McGill men will be interested to hear that Mr. A. Gordon MacIntyre who graduated last spring has recently been appointed editor-in-chief of the Pulp and Paper Magazine of Toronto. Mr. MacIntyre is a B.A. from Acadia as well as a B.Sc. from McGill University.

The New Year number of this Magazine, published by the Industrial and Educational Press, Ltd., Toronto, has just come off the press in its enlarged size, and will hereafter appear twice a month, instead of monthly, as formerly.

The year's progress and development are fully reviewed in this number, and many valuable articles are contributed.

Mr. H. S. Ross, K.C., of Montreal, writes an able and exhaustive resume of the Workmen's Compensation Act of Quebec, with references to those of other countries.

John Norris, of the American Newspaper Association, has a timely write-up on the matters of interest in the newsprint world.

Mr. R. H. Campbell, the able direc-

tor of the Forestry Branch, outlines the Dominion Forestry policy.

The Canadian water powers, timber regulations, pulp and paper tariffs, exports and imports, and the entire condition of the trade and its many ramifications are thoroughly dealt with. All this, with the numerous specially contributed technical articles for pulp and paper mill men, combine to make the Pulp and Paper Magazine a true fulfilment of its heading, "A Magazine devoted to the science and practice of the manufacture of pulp and paper, with up-to-date news of the allied trades."

MY LADY NICOTINE TO BE ATTRACTION AT NEXT ARTS MEETING

The Undergraduate Society of the Faculty of Arts are to make a new departure in the near future. Instead of a regular meeting of the society there is to be a smoker on the 15th of January. A prominent speaker will address the meeting and there will be an excellent and varied programme provided for the edification of those present. The idea is to make the next meeting a sort of recreation night and it was thought that no better way of doing this could be hit upon than holding a smoker. During the evening refreshments will be served and the meeting promises to be a gala event in the annals of the society.

There will be a meeting of the Executive of the Dinner Committee today and final arrangements will then be made with regard to the dinner which caused so much controversy during the past term. It is expected that the dinner will take place about the twelfth of February.

CONSERVATIVES PREPARING FOR OPENING SESSION OF MCGILL MOCK PARLIAMENT

Prominent Speakers will Address Party Rally to be Held
in the Union in the Near Future for the Purpose of
Organizing

SECRET MEETING WAS HELD BEFORE XMAS

Opposition is Confident of Defeating the Government in
the Opening Part of the Session

Things political are beginning to occupy the minds of the students of the University, stimulated by the expected opening within the next two weeks of McGill's Mock Parliament. As intimated in yesterday's "Daily" this feature of the Literary Society's winter programme has taken deep root among the students and is always looked forward to with great interest and pleasure.

Advantage was taken of the few days lull immediately following the Christmas exams, by a member of the leading Conservatives to draw up a temporary plan of procedure and to make the necessary arrangements for a grand rally of all members of the party and such students who are at all interested in politics. At this preliminary meeting a brief and hasty glance was cast over the political field as it prevails at McGill and all were most optimistic as to the future success of the party. They came to the conclusion that with a proper system of organization and a little effort on the part of those more deeply interested in the party platform success numerically will be theirs by at least three to two. They also looked at the quality of the members who were already known and they are certain that the high standard of debate which should prevail at the meetings of the Mock Parliament will not fall short on their account.

During the holidays plans were laid for this rally and speakers invited to be present. It is expected that the forty leaders will be in a position to make a full announcement of the where and when of this meeting in to-morrow's paper but from private sources it is thought it will take place on Friday evening at 7.15. Every student will be invited to attend and a rousing evening is looked forward to, as several well-known speakers and orators have kindly consented to be present and will outline in detail the views of the party on the great issues of the day.

Reciprocity being considered dead by the electorate of Canada and especially by the student body, it is naturally expected that the main bone of contention is to be the Naval Policy, which, as a subject, will allow a considerable scope for the aspiring orators of both parties. The Conservatives expect that before any bill is presented they will have defeated the government and will be occupying the seats to the speakers' right.

It is rumored that Mr. John McNaughton, who has so successfully led the Lib-Con. party in the past, is to retire, but no official knowledge has been taken of the matter as yet. The members of the party are hoping it will prove untrue and that he will again be at the head of his party to guide them safely to the ministerial benches. It is expected on Friday evening that Mr. McNaughton himself will inform the members of his party as to his intentions. The season however looks extremely bright from a Conservative point of view and they are expecting to carry the various planks in their platform by comfortable majorities in the forthcoming meetings.

HARDWARE CLERK'S PROPOSAL

Dear Bell, I love you Mower each day!
Of all the girls you are my Pick;
And if I ever have my way,
You may be sure I'll Steel you quick.
When first I saw your golden Locks,
The Keys to which I hold in part,
I hoped I could with Tackle-blocks
Draw you more closely to my heart.

Could I in my Repeating Arms
But Clasp you, little maid divine,
I'd Bolt you there with all your charms
And Rivet your sweet lips to mine.
I'd Chain your heart's door fast and fair

And Nail the Hinges on with bliss;
I really love you, on the Square;
You'll find no Grater love than this.

So now I'll Screw my courage up
And Axe you if my name will fit?
If so, you're just the needed cup

MUSIC OF ANCIENTS SUBJECT OF LECTURE BY DOCTOR PERRIN

Third Lecture of University
Series Given Last Night

Before a small but deeply interested audience Dr. Perrin gave last night the third of the series of University lectures, his subject being the Music among the Ancients.

Dealing first with the sources of information at our disposal Dr. Perrin pointed out that our knowledge of ancient music and musical instruments is derived from monumental inscriptions and a few specimens of instruments unearthed in recent excavations. We have on the other hand authentic specimens of Greek and Roman music as well as numerous treatises on the theory of music.

After a few brief remarks about music among the Chinese, Hindus and Persians, Dr. Perrin dealt with that of the Egyptians and the Chaldeans, pointing out the sympathy of both and their mysterious connection with astrology.

In his account of the music of the Greeks and Romans he gave a detailed description of the development of their musical instruments and the use of harmony in their music.

Dr. Perrin gave an illustration of Greek music by singing two selections of authentic Greek composition. He laid stress on the simplicity, dignity and sadness characteristic of Greek music.

Passing then to the Romans he pointed out that the first ideas of regular music were derived from Sicily and Greece; the Roman instruments being for the most part the same as those of the Greeks. They also had an hydraulic organ which is the direct ancestor of the modern organ.

Dr. Perrin closed his lecture by revealing the relation between ancient and modern instruments and ancient and modern music.

Write Ideas for Moving Picture Plays!

YOU Can Write Photo Plays and
Earn \$25 or More Weekly
WE WILL SHOW YOU HOW!

If you have ideas—if you can think—we will show you the secrets of this fascinating new profession. Positively no experience or literary excellence necessary. No "flowery language" is wanted. The demand for photoplays is practically unlimited. The big film manufacturers are "moving heaven and earth" in their attempts to get enough good plots to supply the ever increasing demand. They are offering \$100 and more, for single scenarios, or written ideas.

We have received many letters from the film manufacturers, such as VITAGRAPH, EDISON, ESSANAY, LUBIN, SOLAX, IMP, REX, RELIANCE, CHAMPION, COMET, MELIES, ETC., urging us to send photoplays to them. We want more writers and we'll gladly teach you the secrets of success.

We are selling photoplays written by people who "never before wrote a line for publication."

Perhaps we can do the same for you. If you can think of only one good idea every week, and will write it out as directed by us, and it sells for only \$25 a low figure.

PRINCESS THEATRE

"READY MONEY".

By far the most successful comedy of the season opened a week's run at the 'Princess' last night. "Ready Money" by James Montgomery, although in point of dramatic structure is somewhat faulty, is nevertheless so delightful in the general effect produced that all its petty discrepancies are quite easily overlooked. The author has shown remarkable skill in his construction of the plot and in his handling of the sparkling dialogue. Although a trifle epigrammatic it is not enough so to make it monotonous and the piece is flavored with just enough melodrama to make it interesting. The story dwells on complications involved in the accumulating of a vast fortune and the winning of a bride, the starting point being a twenty-five cent piece.

The cast is particularly strong. Worthy of special mention and sharing equal honors are George L. Tucker, who assumed the role of Stephen Baird, the "down-and-out" young hero; Carl Harbaugh, who as Sidney Rosenbaum, was instrumental in adding to the success of the production; Joseph Kilgus, who as Jackson Ties a counterfeiter, inspired his part with a conviction only possible in an actor of the highest merit. Ben Johnson is seen to good advantage in the part of West, a detective, but he is not afforded the same opportunities for good work as on his previous visit here in Gertrude Elliott's company last season in "White Magic." The remainder of the cast is thoroughly capable.

THE ORPHEUM

Although the average nights performance at the Orpheum theatre is of a high level of excellence the program for this week is interesting and amusing even beyond the usual.

Three of the numbers are of such excellent character that it is no easy task to choose any particular one as "The Hit of The Evening" "the hit of the evening." These three are "Klutings Animals" the "Wirth Family" and "Lyons and Yoseo" Possibly that is the way they come in order of merit.

In the trained animal scene, besides the usual number of dogs, Mr. Kluting has three snow-white cats, a rabbit and doves; all of which are put through very clever tricks displaying remarkable agility and intelligence.

The Wirth family in the equestrian number give a display of horsemanship and acrobatic ability that surpasses anything of the kind seen here for a long time. Miss May Wirth has practically all the tricks of the ring in her repertoire and performs with delightful ease and grace.

In their instrumental and song number Lyons and Yoseo won more applause from the audience than was awarded to any of the other presentations. They both possess rich full voices and are extremely generous with their encores.

One other item the "Lived Happy Ever After" skit had many humorous situations, and won considerable applause.

There were the usual number of juggling and song and dance artists.
